## Overview: Nature & Dangers

**Landscape:** Urban sprawl, paved streets, stone architecture, busy harbor, and sewers.

**Atmosphere:** Bustling, loud, and vibrant, but with an undercurrent of religious persecution and crime.

**Dangers:** Temple Guards, Witch Hunters, criminals and, of course, politicians.

# Movement

**Feet:** The primary mode. Navigating crowds, stairs, and narrow streets is best done on foot.

**Horse:** Impractical inside the city walls due to crowds and obstacles. Its speed is limited too.

**Boat:** Used to access the harbor and travel quickly to ports of Velen, Redania or Oxenfurt.

## Bestiary: Necrophages (add after Movement)

Drowner

Yeah, they are here as well. It's a port city, remember?

## Bestiary: Vampires

Katakan

Vampire which can turn invisible and, sometimes, to human

Ekimma

# Bestiary: Relicts

## Doppler

Shapeshifters that copy your skills and personality

# Bestiary: Hybrids

Succubus

Driven by insatiable lust, often pushing  
people to madness

## Influence: Economics & Combat (add after Bestiary: Hybrids)

**Economics:** The richest region. Merchants pay well; banks exchange currency. High-quality gear and craft masters are available.

**Combat:** Tight alleys and interiors restrict movement. Explosive barrels for some reason are all over the place. Fights are often close-quarters against humans.

(There will be gifs with some city fights here soon)
